The largest sugar mill in continental United States will be the Glades Sugar House at Belle Glade when a multi-million dollar expansion program is completed and the grinding capacity of the huge mill is raised from 6,000 tons daily to 8,000 tons every 24 hours. The coop harvested 22,000 acres of cane last season and plans call for harvesting between thirty and 35,000 acres this coming season after the mill expansion.

Actual mill expansion includes the addition of a roll to the tandem, increased clarification and evaporation facilities, and an additional boiler. The increased acreage and mill capacity has also made other additions necessary.

A fourth labor camp for labor housing will be built east of Belle Glade. At present there are housing units at South Bay, the mill site and Pahokee. It will be necessary to expand the cane handling area around the mill, erect a new molasses storage tank which will bring molasses storage capacity to five million gallons.

Plans call for purchase of more agricultural equipment, such as trucks and tractors, and expansion of the agricultural shop building. Under consideration are more buildings to house administrative functions and studies that could lead to the revision of the mill's sugar handling facilities.

The co-op expects to run its mill for a five to six month grinding season this year.

SunFLAVOR Brand Is Given Test

TALLAHASSEE — Florida's new emblem of quality fruits and vegetables, SunFLAVOR, is being tested across the country in markets and grocery stores.

Potatoes, sweet corn and watermelons are the first examples of commodities leaving the state bearing the distinctive emblem that reflects only the top quality of Florida produced fruits and vegetables.

Eventually, many kinds of produce will be marketed under the SunFLAVOR label. By next spring, the State Department of Agriculture expects about 20 items to be carrying the emblem. Officials regard the system as Florida's answer to California's Sunkist label.

The plan to market the state's highest quality produce under a distinctive label was the brainchild of Agriculture Commissioner Doyle Conner. He proposed the plan to the 1935 Florida Fruit & Vegetable Association convention and offered a cash prize for the winning label. Later, after adoption of the emblem, the plan was proposed to the state Legislature which adopted it and passed the law to regulate it.

When the program moves into high gear next season, national promotion and advertising will also begin. Florida officials hope that housewives will look for the SunFLAVOR label in buying groceries because the label will certify the best in Florida's products.

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
U.S. SAVINGS BONDS

Executive Plan Florida Publicity

ST. PETERSBURG—Key executives of about a dozen northern corporations which have expressed an interest in establishing a Florida Council of 100 at a luncheon in the Florida Pavilion at the New York World's Fair on June 4.

The occasion was the result of the Council's "Leader-to-Leader" program. Each council member in the program has established a personal liaison with one top officer of those companies interested in Florida.

"The program," said Council Chairman Raleigh W. Greene, Jr., "is based on the concept that Florida's best salesmen for new business are those business men already operating profitably here."

Two committees within the Council of 100 are producing the "Leader-to-Leader" program, headed by Michael O. O'Neal of Miami, and James W. Wellman of Lakeland.

Those artists responding to the plan include Syd Solomon, Frank Rappolla, Richard Oxley, Hilton Leach, Beth Arthur, Evelyn Marx, Robert Larrin, Craig Rubadoux, Bruce Gregory, Vernon C. Voelz, Martha Estus, Mr. Mitchell and Lorin Wilford.

In Florida... after bowling, beer is a natural

After you've bowled a game or two, or when you're winding up the evening at the neighborhood bowling center, it's good to relax with friends and compare scores. What better way to add to the sport and the sociableness than with a refreshing glass of beer? However you take your fun—beer always makes a welcome addition to the party.

Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

Why should you buy U.S. Savings Bonds when there are so many other good investments?

To help your country is one answer—and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money: either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a Bond or through regular purchase of Bonds at your bank.

Another unique advantage of U.S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment—as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever.

Buy Savings Bonds. The banks or savings institutions that sell them don't charge you a penny for the service.

Keep freedom in your future with U.S. SAVINGS BONDS
